*This is the time  
we all walk hand in hand  
feet planted firmly on the ground  
this is where we stand*

*This is the place  
we all exceed our dreams  
working for each different goal  
nothing is as it seems*

*This is a start  
we're all about to begin  
taking a new step out into . . .  
the world we live in.*

**I**f I could go anywhere, I'd go into the future to see what my life turned out like and then come back to change things. I would let my kids come to Bowman because it's a great school. The teachers are your friends and interested in your personal needs. If I was adopted, I'd be curious about why my real parents left me, but I'd keep my current parents because I love them. I wish I was talented in poetry because it's a beautiful way to express your feelings. The most embarrassing thing I ever did was to faint in a store. I probably looked really stupid! Life is a time to share your memories, and to share days to come with people you love.

Cinnamon Meyer

**T**he most boring thing I can think of is sitting alone in the house with no T.V., music or lights. I would go through that if I'd be allowed to have a raging birthday party afterwards. I think the hardest thing about growing up is standing on your own two feet, without your parents to lean on. If I could be any animal I'd be a bird so that I could see things from the sky. If I could have a sixth sense it would be to be able to read people's minds so I could know what they're thinking. The best advice I've ever received was from my mom — to go back to school and do something with my life. In one line, life is . . . doing the things you were meant to do.

Crystal Jones

Happy  
Thank you  
Have a great  
Summer  
Come back  
to see you  
next year.  
Love  
Crystal

**I**n the year 2050 I picture the world overpopulated, burning up and very polluted. People who aren't true to themselves or to anyone else, people who play with other people's minds, and people who kill and hurt living things for no reason — these people all make me angry. When the world is happy and can live together in harmony there will be peace. The best advice I've ever received is to do my best, and to always remember that no matter what happens I am a good person. I should strive to be the best person I can and remember that nobody's perfect. *THIS IS* what life's all about: happiness, sadness, loss, gain, and love.

Christine Wagoner

**I**f I found out that I was adopted, I wouldn't try to find my natural parents. The ones I have now are the best and nothing could top them. The hardest thing about growing up and moving on is having to leave my mom and dad. The most boring thing that I could imagine doing would have to be watching T.V. while the cable's out, or maybe working on one of Brian's labs. My nickname is "Taz", as in the Tasmanian Devil. He doesn't take "\*/#::!!" from anyone. I'd describe peace as no one killing anyone, no gangs, and not having to watch your back all of the time. When I find it hard to fall asleep, I think about the path I've taken in life, and wonder if I'll ever grow old and have grandkids and who I'll be with at that time. *THIS IS* life: like a joke — one after the other. The punch lines just keep on hitting you in the face.

Randy Taylor

**I**f my father dyed his hair green and went to the mall, I'd dye my hair green also and go with him! If I could travel into the future I'd go to the next superbowl, see who wins, and come back to bet my life savings on the game. If I could be invisible, I'd come to school, tie everyone's shoelaces together, and sound the fire alarm! The worst nightmare I ever had was one in which I was arrested and the police sentenced me to 100 years of homework. I wouldn't have that dream again even if I could spend a weekend at Disneyland. The hardest thing about growing up and moving on is having to buy bigger clothes all the time 'cuz your others are too small. Life is all about money, power, and greed.

Dennis Carroll

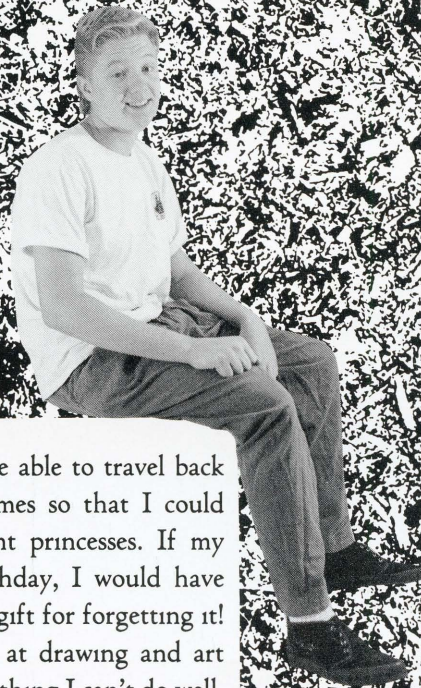

**I**f I could be invisible for a day, I would go to Magic Mountain for free and ride on all the rides. If I found out that I was adopted I wouldn't try to find my natural parents because if I was supposed to be with them in the first place, I would have been. If I could have a talent, it would be to surf like Pat Moss. He is a professional surfer who gets free surfing equipment and free surfing trips around the world. The hardest thing about growing up and moving on is handling responsibility and adapting to change. In one line, life is . . . a gift you've been given; you make it whatever you wish.

Jake Foster

**I**would like to be able to travel back to Medieval times so that I could check out the excellent princesses. If my family forgot my birthday, I would have them buy me an extra gift for forgetting it! I want to be talented at drawing and art because that's the only thing I can't do well. Wolverine is my favorite comic book character because he can slice and dice and heal himself. The funniest gag I've ever played was the time I threw fake spiders in the movie theatre while "Arachnophobia" was playing! If I had a magic wand, I'd fix the ozone layer so that we won't die. I'd also like to invent a machine which would create an atmosphere on the moon to control overpopulation on the earth. *THIS IS* what life's all about: having kids.

James Selph

**I**would like to go back in time to Alaska — 60,000,000 years — to see the pink dolphins and whales. If I could be an animal for a day, I'd be a dolphin because they are so beautiful, peaceful and smart. I idolize Alfredo. This dude is a cool cat. I wish I could be just like him. I would like to cure bad breath because some people need it. Peace is incomprehensible. You just have to hit up a few "Dead" shows to know what peace is. *THIS IS* life: getting along, and getting prepped up for the after-world.

Helle Abbott

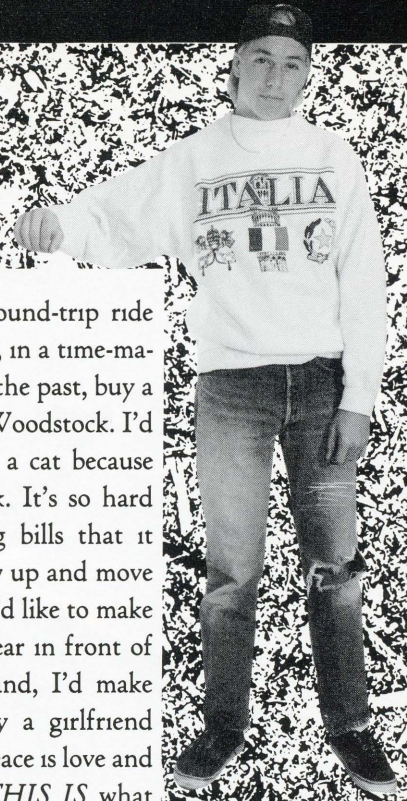

**I**f my family forgot my birthday I'd paint myself bright blue and run down the street. The worst nightmare that I can remember? I was in Debbie's class; I was strapped to the wall and those colored pencils were being thrown at me at high speed. When their needle-sharpened points hit me, the lead broke off in my flesh . . . What a nightmare! To make life better I would invent a huge air filter that would suck up all the pollution. That way, we'd be able to breathe for a couple more years. I would like to be a hawk. They can nose dive at 200 m.p.h. — I love going fast. *THIS IS* what life is all about — the color of money.

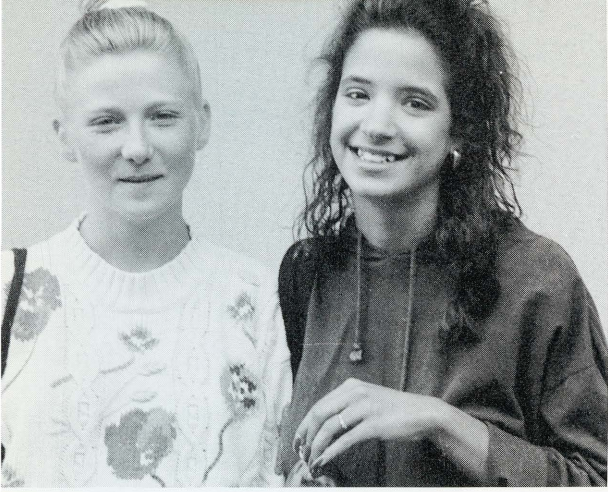

Jeff Bodman

**I**f I could take a round-trip ride anywhere, anytime, in a time-machine, I'd travel back into the past, buy a '69 Vette and go back to Woodstock. I'd like to be reincarnated as a cat because they are so cool and sleek. It's so hard getting a job and paying bills that it makes me hesitant to grow up and move on. If I had a sixth sense I'd like to make things appear and disappear in front of me. If I had a magic wand, I'd make money for myself to buy a girlfriend with 'cuz I'm desperate! Peace is love and happiness. In one line, *THIS IS* what life is working and paying bills.

**Joy Williamson**  
**Instructional Assistant**

"Each Bowman graduation I've attended has been memorable. Sharing that moment's achievement with everyone reaffirms my reasons for being here."

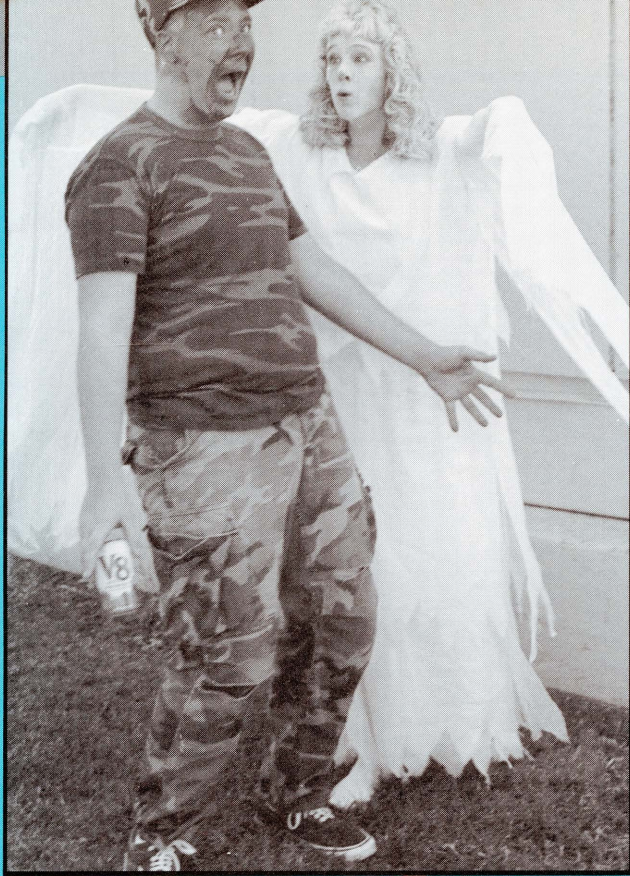

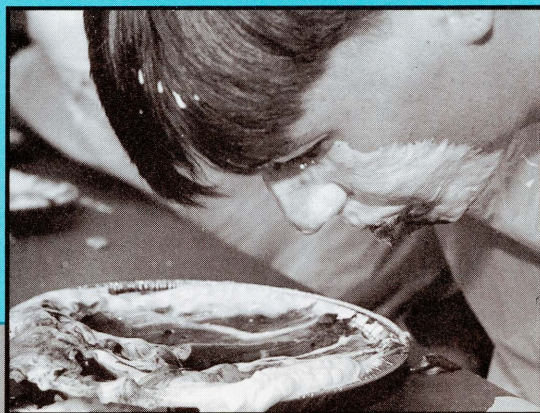

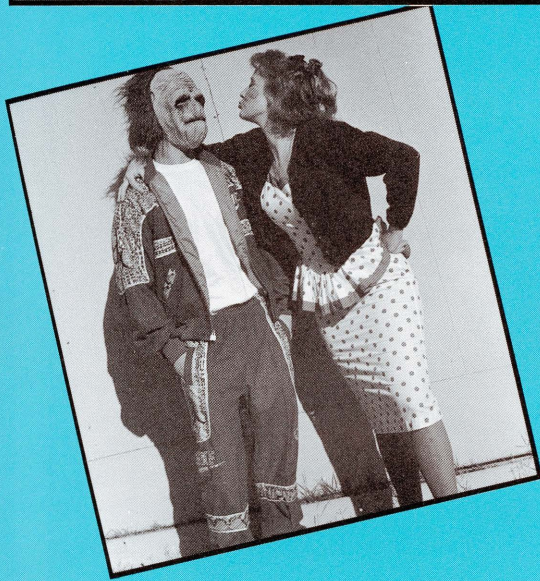

*THIS WAS ...  
not just another Halloween*

*Bowman Halloween, 1990: We think it was the best one yet. Almost every single student found an activity to suit his or her taste. There was a pie-eating contest for our hearty eaters, a tug-of-war for our muscle-bound dudes, a water balloon toss for the brave and coordinated, pumpkin carving for the creative, and, of course, our ever-favorite costume contest. Tammy Winder and Randy Taylor tied for first place for best costumes. Matt DiGiulio won scariest costume. Cinnamon Meyers wore the funniest costume and Priscilla Rodriguez dressed in the most unique costume. Dennis McCord ate his way to a chocolate-coated pie-eating contest victory.*

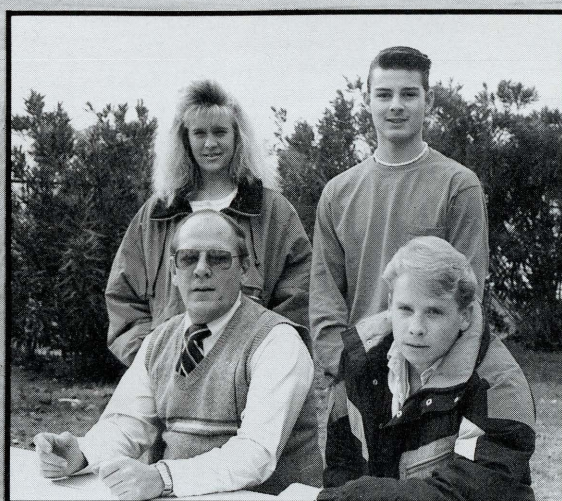

## **This is the Place**

**THIS IS** the place where people care and share . . . where you are given a second chance at high school and earning a diploma. **THIS IS** a special place where you can get to know yourself better and be accepted for what you are and not what others say you should be. **THIS IS** a place which will last for only a short time, but it can play a vital role in helping you realize a dream . . . seize the opportunity.

**Principal — Richard Artzer**

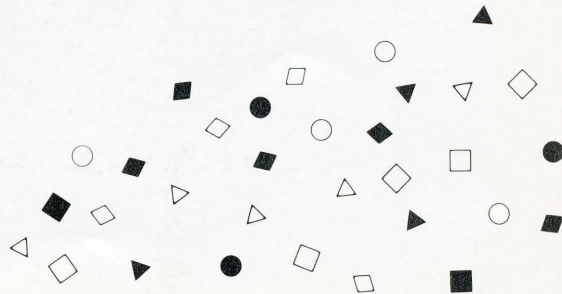

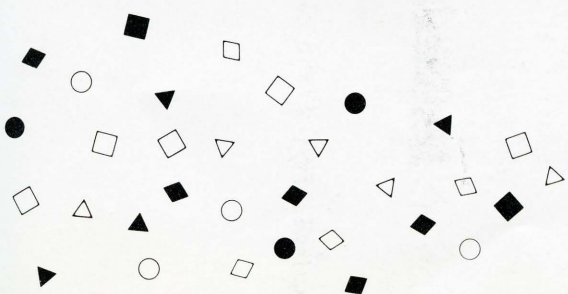

*Jo Ann Ward, Melissa Adams, Jenypher McGinnes, April Gowdy, Lynn Forster, Jodi Blumberg, Terri Engh, Stacey Schmidt, Rob Hammonds, Angie Arredondo, and (not shown) Clista Prince, Tanya Lees.*

## **A.S.B. '90/91**

*What is A.S.B.? A.S.B. stands for Associated Student Body. But it's more than just a name. It's a group of students who meet once or twice a month during the lunch period to plan the activities at Bowman. We have had many activities that turned out to be big successes. Jo Ann Ward and Lynn Forster, our advisors, help us to focus on the work we do. We raise funds through our 7-up soda sales and through businesses in the community. The money and gifts donated are used for prizes and goodies for the students on activity days.*

*Debbie Hild* - I hope everyone enjoys this 1991 "Visions". It was truly a job well done by a dedicated and hard working staff. If you see any of the people appearing on this page, take the time to thank them for their creativity and perseverance.

*Linda Strewick-Horn* - these people did a great job! It's been a pleasure to work with them!

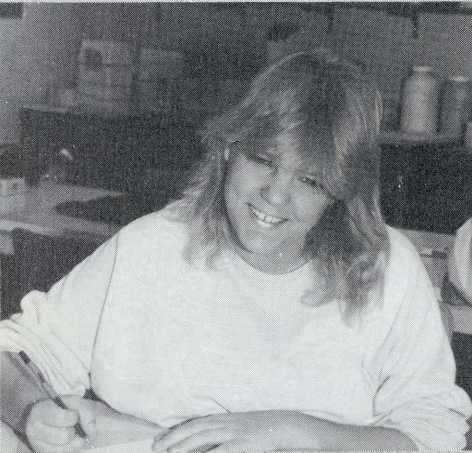

*Terri Engh* - Stress? What's that?

## *This is the team, These are the people!* **Visions Staff '91**

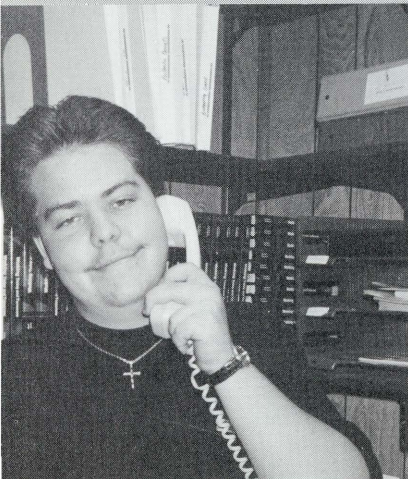

This is the team that continued the great tradition of "Visions" Each year a new group is formed to carry on the legacy. A different staff strives to make the yearbook a little bit better than the years before. This year we know we have done it! We have worked hard to accomplish this task. Due to the constant nagging and never-ending patience of our advisor, Debbie, we learned how to form layouts, take pictures, work in the darkroom and come up with new imaginative ideas. We also learned how to deal with the stress of meeting deadlines (which we did, although sometimes a little late).

It's been a great experience being part of such an unique group. Thanks to all those who have helped to make this '91 yearbook possible. a special thanks to our advertisers, sponsors, and all of our teachers. Thanks also for the last minute help from Angie Arredondo, Zac King, and John Buchan.

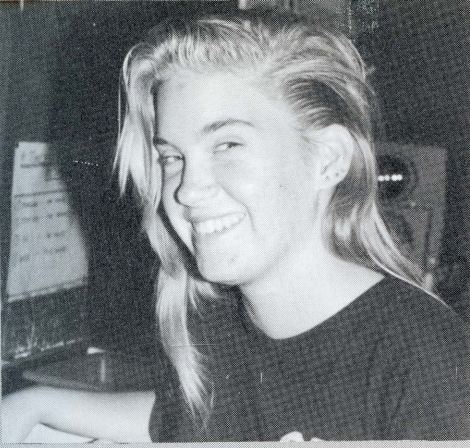

*Crystal Jones*

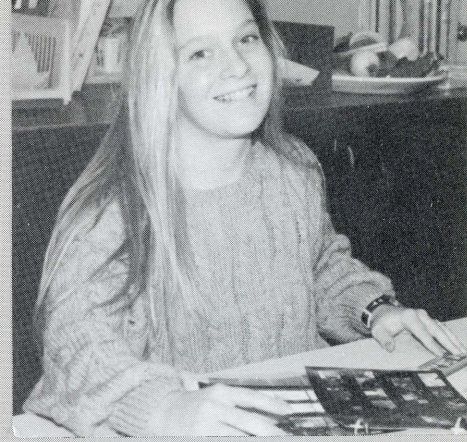

*Ron Thompson*

*Christine Wagoner* - to all new yearbook staff members: stay away from Debbie around deadlines!

*Stacey Schmidt* - Learning how to form layouts was a lot of work. It was great, but when the proofs of my pages came back all messed up - x#\*ca!D. It was just my luck.

*Jason Smith*

*Jennifer Block* - Taking pictures and developing was fun. Other things were tough, but over all it was great. I just hope everyone enjoys it!

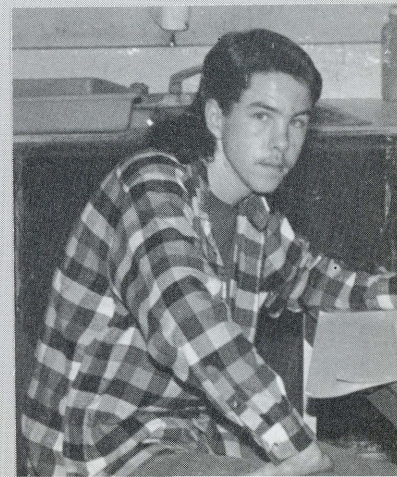

*Julie Selph* - Yearbook tried my patience but was an extremely wonderful experience.

*Tina Harding* - I had a lot of fun going around bugging people for their pictures. The funniest part was watching Debbie wig out and be a geek.

*Dennis Carroll* - Yearbook was a hard class, but it taught me a lot.

# FREEDOM IS NOT FREE; DESERT SHIELD/DESERT STORM

The war that affected us — 1991

Survey - Before the War

*Michelle Block — I'm against the war; we need to learn how to work things out peacefully. I hate knowing a few of my friends might die over there.*

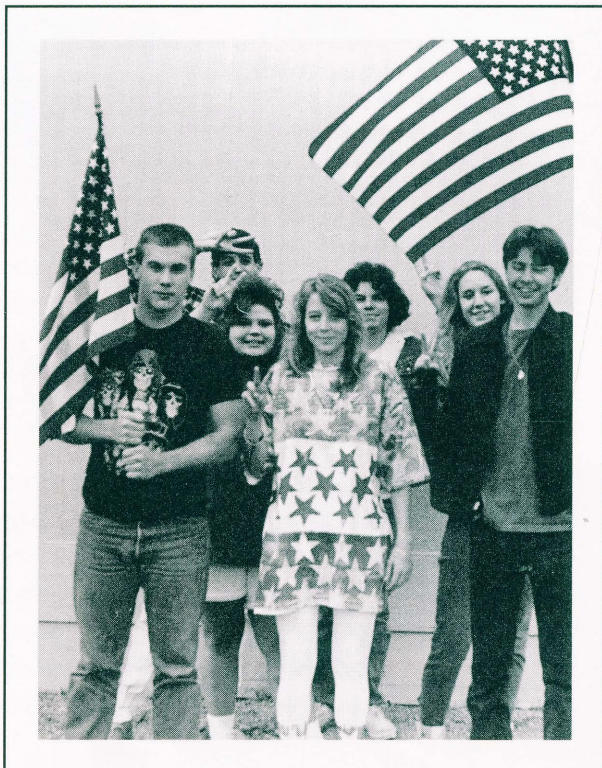

*Rob Hammonds — I feel that taking action now will protect us from more men lost later. I think if we hold off, then Iraq will have more power and nuclear weapons.*

*Jake Foster - I think this war and all other wars is a way for the people to get the economy back together. That's a lame way to do it because it takes innocent lives.*

*Ian Smith — I think we should have gone to war back in November, but Congress couldn't make up their minds. I support Bush in anything he decides; we the people elected him; he's a true American and a Christian.*

*Graham Howell — I do believe in this country, but I don't believe in this war. California has one of the world's biggest oil refineries. We only get 10% of our oil from Kuwait, so I don't think we should be there. I just hope we're doing the right thing.*

*Helle Abbott — I think we should go to war because we can't stop now or else people all over the world will think they can walk all over us. Plus - we are going to win anyway!*

# AMERICA AT

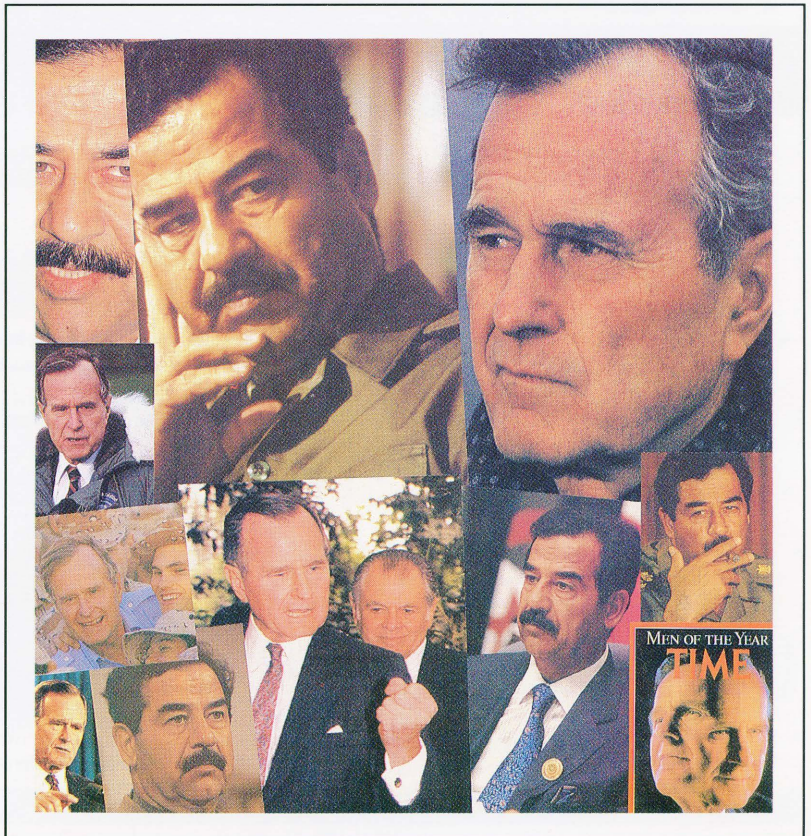

## JANUARY 16, 1991

*The Berlin Wall crumbled without bloodshed after dividing East and West Germany for decades. Nelson Mandela was freed from a South African prison after serving 27 years as a political prisoner. Mikhail Gorbachev introduced "Perestroika" and "Glasnost" as he made sweeping reforms across the Soviet Union. The Cold War came to an end as the relationship between the United States and the Soviet Union turned into one of cooperation.*

*The end of the eighties seemed to signal the end of conflict in many areas of the world. Although there were still some troubled spots around the globe, many looked to the nineties as a decade of peace and healing.*

*On August 2, 1990 Saddam Hussein of Iraq invaded Kuwait.*

*Saddam Hussein, whose name translates as "one who confronts" threatened the invasion on July 17. Our feelings of peaceful optimism disappeared as the person U. S. News and World Report magazine labeled "The World's Most Dangerous Man" sent 100,000 troops into Kuwait.*

# THE WORLD

# UNITED

# T O F R E E K U V

- Aug. 3, 1990. The United Nations Security Council denounces the attack on Kuwait and orders world-wide economic sanctions against Iraq.
- Only a few days after the brutal attack on Kuwait, Iraqi troops move toward Saudi Arabia's border.
- As a total of 28 nations come together, Operation Desert Shield is born. Allied forces include the U.S., Italy, England, Egypt, Kuwait, Saudi Arabia and Canada.
- Aug. 6, 1990. President Bush commits U.S. forces to the Saudi Arabian desert. Demonstrations in support of troop deployment to Saudi Arabia, and against it, fill streets in America and abroad.
- Aug. 28, 1990. After pleas are made from around the world, Saddam Hussein releases the women and children hostages he held.
- Nov. 29, 1990. The United Nations Security Council gives Saddam Hussein 47 days to unconditionally withdraw from Kuwait. This order sets the Jan. 15 deadline.
- Dec. 6, 1990. Saddam releases hundreds of Western hostages.
- Nineteen hours after the deadline, the night of Jan. 16, 1991, the liberation of Kuwait begins

with massive air attacks on downtown Baghdad and occupied Kuwait. Operation Desert Shield becomes Operation Desert Storm.

- Hours after the war begins, in an attempt to break up the U.S. led coalition, Saddam releases his first Scud missiles at Tel Aviv, Israel.
- In Israel's defense, America quickly sends Patriot missiles to knock out the incoming Iraqi Scuds. The Patriot's performance proves to be exceptional.
- Two weeks into the war, Saddam Hussein violates *The Third Geneva Convention* by parading allied prisoners of war on television. The battered men make statements condemning Allied attacks on "peaceful Iraq."
- Feb. 2, 1991. Saddam torches oil fields and releases more than 6 million barrels of crude from Kuwaiti tankers and offshore terminals (12 times more than the Exxon Valdez spill) in a failing attempt to ward off an amphibious attack and endanger Saudi Arabia's water supply.
- Feb. 21, 1991. Soviet diplomats meet with Iraq's foreign minister, Tariq Aziz, in an effort to draw up a cease-fire proposal that meets the conditions of the United Nations Security Council.
- Feb. 22, 1991. President George Bush,

- reaffirming United Nations Security Council resolutions, gives Saddam Hussein less than 24 hours to get out of Kuwait or risk ground war.
- Feb. 23, 1991. The ground war attack to liberate Kuwait is launched. Over 20,000 Iraqis surrender in the first 36 hours of the confrontation.
- Feb. 25, 1991. An Iraqi Scud attack on Saudi Arabia kills 28 Americans and injures over 100.
- Feb. 26, 1991. Kuwaiti Government Officials declare Kuwait liberated.
- Feb. 27, 1991. President Bush orders a cease-fire exactly 100 hours after the beginning of the ground war assault. America suffers 292 casualties, 9 Americans become prisoners of war and 27 planes are lost. Of Iraq's 400,000 troops, 300,000 are taken from action, while 3,008 tanks and 140 planes are destroyed.

*"One of the fondest expressions around is that we can't be the world's policeman. But guess who gets called when suddenly someone needs a cop?"*

*"I have seen in your eyes a fire of determination to get this job done quickly so that we may all return to the shores of our great nation. My confidence in you is total. Our cause is just! Now you must be the thunder and lightning of Desert Storm."*

Operation Desert Storm was a war similar to wars of the past. Yet it was a war unlike any previous war. Operation Desert Storm added a new dimension to the term "war." Never before had there been laser-guided missiles; never before had women served in a military capacity on such a large scale; and never before had the United States gone into war with an all-volunteer force.

Because of the "smart" weapons being used in Operation Desert Storm, some called this the "Nintendo" war, while others referred to it as "Star Wars." In any case, the comparison was clear. This would be a war of sophisticated technology. The use of high-tech weapons would determine the victor.

The Apache AH-64 helicopter, the M-2 Bradley and the Abram tank all made their debut as a new generation of weaponry. The Apache brought with it the laser-guided Hellfire missile that illuminated targets with a laser beam before destroying them. The 20-foot-long Tomahawk missile (smart bomb), made with small jet engines and on-board computers, was said to have a mind of its own. Programmed by an inertial guidance system, the Tomahawk could fly over 500 miles per hour. By using sensors and gyroscopes to measure changes in direction, it could be fired from a ship or submarine 1,500 miles from its target and hit it with unnerving accuracy. The Patriot missile was said to be the backbone of defense artillery. Many doubted the capabilities of the Patriot; the thought of a bullet hitting another bullet was simply unimaginable. However, like the other sophisticated weaponry used, the Patriot proved exceptional.

This conflict was unlike any other in recent history for more reasons than just the use of high tech equipment and the presence of women in military roles. Perhaps the most unique thing about Operation Desert Storm was the use of the National Guard and Reserves. Many joined these organizations for patriotic reasons, while others joined to help pay for a college education or gain job experience. It was fairly safe to assume that few ever imagined that they would end up involved in a Middle-East war.

The most frightening aspect of the conflict with the Iraqi troops was the constant threat of chemical and biological warfare. No other leader in recent history had been as threatening in this respect as Saddam Hussein. Throughout the conflict military forces and civilians scrambled to get into gas masks as air raid sirens sounded. Iraqi missiles were frequently aimed at heavily populated military and civilian locations in Saudi Arabia and Israel. Precedent had shown that Hussein would not hesitate to use chemical and biological warheads.

While facing this threat, the troops involved in Operation Desert Storm had the support of the entire country. And while many may have questioned the motives behind the conflict, none questioned the valor of those who served.

**HIGH TECHNOLOGY GOES TO WAR**

**ALL VOLUNTEER FORCE**

# THE IMPACT

## OF THE WAR

The impact of Iraq's invasion of Kuwait was first felt by Americans at the gas pumps. Gasoline prices skyrocketed immediately after the invasion. The inflated prices were only temporary, however, and by the beginning of the ground war on February 23, gasoline prices averaged five cents a gallon less than the day before the invasion.

As the days dragged on with Iraqi forces still in Kuwait, people began to fear more than high fuel prices. When President Bush committed U.S. forces to the Middle East, the conflict hit home. Saddam Hussein had not only invaded Kuwait, but he had also invaded American homes. Men and women who had never imagined going to battle were sent to the Saudi Arabian desert. Suddenly this was our war. Our fathers, mothers, husbands, wives, siblings and friends were leaving the safety of home and traveling to the Middle East. Children were being left with relatives and friends as both parents were assigned to Operation Desert Shield. Reservists and National Guard members were being called upon to take an active role in the effort to free Kuwait.

As more and more civilians were being sent to the Middle East, we remembered hearing about the draft during the Vietnam War. If this conflict dragged on would the draft be reinstated? Would we be called on to go to war half a world away?

We held our breath with every news report. Months dragged by as the world waited for economic sanctions to force Iraqi troops out of Kuwait. We waited anxiously as the January 15 deadline passed. Just as the generation before us remembers JFK's assassination, we remember where we were on January 16 when we heard that the war had started. We watched in horror as Iraqi television broadcast footage of brutalized allied POWs. We stared in disbelief as the ecological balance of the Middle East was deliberately destroyed by an oil spill and oil fields that had been set ablaze. We were constantly amazed by reports of atrocities that were reported by eyewitnesses from Kuwait.

While we worried for our loved ones and friends in the Middle East, an amazing thing happened here at home. Patriotism reached an all-time high. American flags were everywhere. The country was covered with many yellow ribbons, our symbol that our thoughts and prayers were with our fellow countrymen in the Saudi desert. Not everyone agreed that we should be involved in the Middle East conflict, but nearly everyone supported the men and women who were part of the allied coalition.

The impact of Desert Storm will be with us for years to come. We will remember the waiting, the fear, the sorrow and the patriotism. We will remember how it felt to be part of the most serious conflict since Vietnam. We will also hope that this will be the only war story that we will have to tell our children.

# AMERICA WELCOMES BACK THE **HEROES** OF DESERT STORM

**O**n February 27, 1991, President Bush ordered a cease-fire exactly 100 hours after the beginning of the ground war assault. Kuwait was liberated. The mission of the allied coalition was complete.

The American people are proud of their military. It was time to concentrate on the safe return of the men and women of Operation Desert Storm. The removal of U. S. forces from the Gulf was predicted to be complete within six months.

## **My Thoughts About Desert Storm**

*What were your hopes and fears when you heard about the beginning of Operation Desert Storm?*

*Do you have any relatives or friends serving in the military?*

*Has the war brought people together in this country?*

*How has the war affected you?*

*What is your prediction for the future of this area?*

**Kevin Marth — The Persian Gulf Crisis had many effects on people in many different ways. At first people didn't accept the war. But later, almost everyone was for it. It turned out that Saddam lost very badly - hopefully now his people will be against him. Israel did a good thing in staying neutral, and we should respect them for that. Now that the war is over maybe we can give peace a chance, and this time make it last**
