Use this booklet to jot down frequently called numbers. Ask your business office for a free copy.

HOW TO DIAL

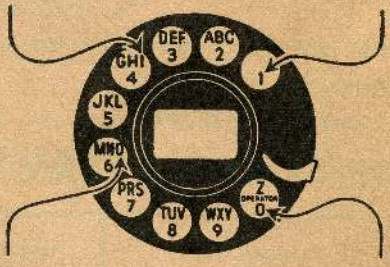

HOW TO USE YOUR TELEPHONE

- Be sure the number is correct and that it may be dialed direct from your telephone.
- Listen for the dial tone.
- Do not dial out-of-town numbers.
- Dial the first two letters of the prefix and the five numerals.
- Release the dial and let it return to its normal position. Do not force or retard the return motion of the dial, as this may result in a wrong number.
- If a mistake has been made in dialing, hang up then listen again for dial tone before dialing the letters and numerals.
- You cannot reach a party on your line by dialing. To ascertain the number of the party on your line, ask Repair Service for the number. To call a party on your line, dial Operator. Tell her the number you wish to call is on your line and she will assist you.

CAUTION: Do not confuse the letter "O" with the numeral "0" or the letter "I" with the numeral "1."

This is always the LETTER "I"

This is always the NUMERAL "1"

This is always the LETTER "O"

This is always the NUMERAL "0" (Zero)

TONES & SIGNALS

DIAL TONE

HUMM-M-M-M-M-M

The telephone equipment is ready to receive your call when you hear the steady humming tone.

RINGING SIGNAL

BURR-R-RING BURR

If you have dialed properly, and the line is not busy, you will hear the ringing signal—a "burring" tone at regular intervals. This starts 5 to 20 seconds after dialing is completed. s that the called telephone is ringing. Please g up until you have allowed the called per- nable time to answer.

BUSY SIGNAL

BUZZ- BUZZ- BUZZ-

If the called line is in use, you will hear a steady "Buzz" "Buzz" "Buzz." When this happens, hang up for a few minutes, then try the number again.

VOICE RECORDER SIGNAL

A short high "Beep" tone, heard on the line about every 15 seconds, means that the person with whom you are talking is recording your conversation. Use of a recorder without this signal is unlawful.

MISROUTED CALL TONE

When you attempt to dial a number that should be placed with the Operator, you will hear the "misrouted call tone" . . . a continuous sound rising and falling in pitch. Hang up for a moment, listen for the dial tone, then dial "Operator."

CALLS TO AUTOMOBILES, TRUCKS and TRAINS . . . just say to the Operator, "I want the Mobile Service Operator."

TO PLACE A CALL FROM A MAGNETO TELEPHONE

1. If you have a party line, make sure the line is not in use before signaling.
2. With the receiver on the hook, signal the operator by turning the crank briskly for at least three turns.
3. Then lift the receiver. When the operator answers, give her the number you wish to call.
4. On completion of your conversation hang up and give the crank at least three turns to let the operator know you are through talking. She will then disconnect you.
5. If it is necessary to recall the operator [illegible] she is holding your line, hang up and [illegible] on a new call. Then remove the rec[illegible] listen for the operator's answer.

YOUR TELEPHONE DIRECTORY

DISTRIBUTION

The Company distributes to its subscribers without additional service charge such directories as in its opinion are generally necessary for the efficient use of the service. Other directories will be furnished at the discretion of the Company for a reasonable service charge. As a matter of good service, the Telephone Company retains ownership of telephone directories. For this reason we ask that they be given to the delivery man at the time the succeeding issue is distributed.

ATTACHMENTS TO DIRECTORIES

The attaching to this directory of any index, cover, or other appliance containing advertising is prohibited.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at your Telephone Company Business Office. If you desire any copies, they may be secured at an additional service charge by arrangement with the Business Office.

ERRORS

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

ADVERTISING—YELLOW PAGES

For information on classified directory advertising, call your Telephone Company Business Office.

GENERAL INFORMATION

IDENTIFICATION OF EMPLOYEES

Employees of the Telephone Company, whose duties require them to enter the premises of subscribers, are supplied with identification cards. If you doubt the authenticity of the identification card presented, please call your Telephone Company Business Office and ask for the Manager.

ATTACHMENTS TO TELEPHONES

In the interest of good service, please do not use any devices on telephone equipment except those furnished by the Company. The devices claimed by agents to eliminate noise, to destroy germs, etc., are usually detrimental and interfere with good service.

RATES

Rates and practices included in this directory are based upon those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

PUBLIC TELEPHONES

Instructions are posted on or near telephone instruments. Please report service difficulties. A charge is not made on calls which are not completed.

Long distance calls

mean so much cost so little

A long distance "visit" costs so little anytime you call—day or night. It's a special bargain after 6 p. m. on weekdays and all day Sunday.

Low long distance rates to many cities are shown on the inside cover of this directory.

FREE telephone number booklet

Handy booklets like these...

for your personal local and out-of-town numbers—are yours for the asking. Just write or stop in at your Pacific Telephone business office. By keeping a list of numbers you call frequently, you'll save plenty of time. Remember, your long distance calls go through twice as fast when you call by number.

The Dial Tone may take a few extra seconds during busiest hours. When you hear the steady "hum" of the Dial Tone, go ahead and dial your call. But if you don't hear it at once, please wait until the familiar humming sound comes through. Dialing without the tone results in a wrong number—or no number at all.

WI = WIndsor. Dial letters "W" and "I", then the five numerals. (Use "GHI" dial space for letter "I".)

Behind on orders? Let handy Classified introduce the suppliers you need. It's fast. It's convenient. Wise buyers say there's nothing like the Yellow Pages of your telephone book for getting in touch with almost everyone around who sells things, fixes things, does things. Try Classified once . . . you'll use it often.

The Dial Tone may take a few extra seconds during busiest hours. When you hear the steady "hum" of the Dial Tone, go ahead and dial your call. But if you don't hear it at once, please wait until the familiar humming sound comes through. Dialing without the tone results in a wrong number—or no number at all.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Ask your youngsters to be considerate, too.

The Dial Tone may take a few extra seconds during busiest hours. When you hear the steady "hum" of the Dial Tone, go ahead and dial your call. But if you don't hear it at once, please wait until the familiar humming sound comes through. Dialing without the tone results in a wrong number—or no number at all.

Here are the Golden Rules for good party-line neighbors:

- If you are using a dial telephone, listen for the steady **hummming** sound of the dial tone before you dial.
- Space your calls instead of making a series of them without interruption.
- When you finish talking, replace the receiver properly.

A thoughtful party-line user answers her telephone bell promptly . . . places her own calls accurately, so that they do not have to be placed again . . . does not monopolize the telephone at the inconvenience of others . . . teaches children, too, the little telephone kindnesses and when her telephone is not in use, sees that it is hung up.

For accurate dialing of your calls, wait a few seconds for the steady humming sound of the dial tone. Then dial each letter and numeral gently, without forcing. If you get a busy signal, please hang up before dialing again.

Here are the Golden Rules for good party-line neighbors:

- If you are using a dial telephone, listen for the steady **hummming** sound of the dial tone before you dial.
- Space your calls instead of making a series of them without interruption.
- When you finish talking, replace the receiver properly.

Here's how you may be sure of getting your party more often when you dial:

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

Improvements in the telephone art which may contribute to the expansion of service in rural areas include high-strength steel wire requiring fewer poles; a method of sending telephone conversations over rural power lines; rubber-covered wire that can be laid directly in the ground; and a radio-telephone for remote spots.

Before you call, it's wise to look up the correct telephone number in the latest directory . . . and then wait for the dial tone. While you're dialing, keep watching the dial. And always give the other person a minute to answer the phone. You'll get your party more often this way!

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Ask your youngsters to be considerate, too.

The Dial Tone may take a few extra seconds during busiest hours. When you hear the steady "hum" of the Dial Tone, go ahead and dial your call. But if you don't hear it at once, please wait until the familiar humming sound comes through. Dialing without the tone results in a wrong number—or no number at all.

Party-Line Pointers:

1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

FOUR THOUGHTFUL ITEMS OF TELEPHONE PROCEDURE

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and slowly, with the lips just clearing the transmitter.
4. Please replace the receiver gently when through talking.

The men and women of the Bell System are used to meeting emergencies and they are trained and equipped to carry on in times of special need. For years they have known the test of fire, flood and storm. Always before them is the tradition that "the message must go through."

Telephone men in all parts of the Bell System have had long experience in working together. Tools, equipment, methods of tackling the job and the "language of the business" are the same north or south, east or west. This nation-wide unity of method and spirit means a telephone service of the utmost dependability.

Before dialing, a few seconds are sometimes required for the equipment at the central office to get ready to serve you. When it is in position, you hear a notifying hum, a "dial tone," corresponding to an operator's "number, please?"

You'll get quicker dial service if you follow these simple steps:

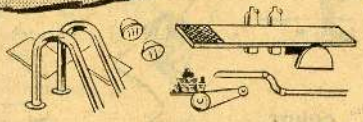

1. Listen for the dial tone. It's your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Lift your finger and let the dial return naturally, without forcing.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

Here are the Golden Rules for good party-line neighbors:

- If you are using a dial telephone, listen for the steady **hummming** sound of the dial tone before you dial.
- Space your calls instead of making a series of them without interruption.
- When you finish talking, replace the receiver properly.

The Dial Tone may take a few extra seconds during busiest hours. When you hear the steady "hum" of the Dial Tone, go ahead and dial your call. But if you don't hear it at once, please wait until the familiar humming sound comes through. Dialing without the tone results in a wrong number—or no number at all.

Good neighbors are considerate party-line users. Remember these party-line golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as you have to on each call.
- When you finish talking replace the receiver properly.
- Ask your youngsters not to monopolize the telephone.

Telephone men in all parts of the Bell System have had long experience in working together. Tools, equipment, methods of tackling the job and the "language of the business" are the same north or south, east or west. This nation-wide unity of method and spirit means a telephone service of the utmost dependability.

Here are the Golden Rules for good party-line neighbors:

- If you are using a dial telephone, listen for the steady **hummming** sound of the dial tone before you dial.
- Space your calls instead of making a series of them without interruption.
- When you finish talking, replace the receiver properly.

Here's how you may be sure of getting your party more often when you dial:

1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

Let Pacific Telephone install a PBX to fit your needs

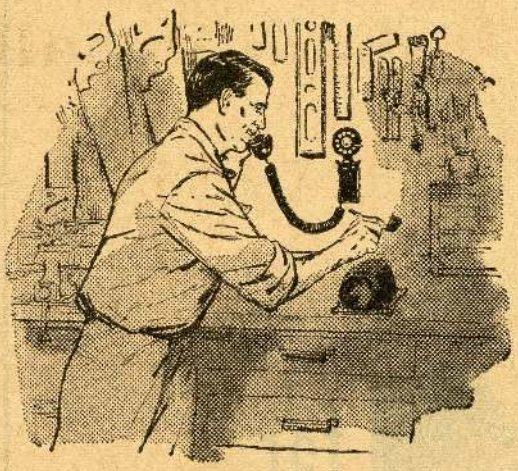

Here's the new Bell cordless PBX. It's designed for small offices and plants with 2 to 5 lines and 5 to 12 telephones. It handles incoming, outgoing and inter-office calls. And you can see, it's as attractive as it is useful.

You can have Bell System quality and dependable service in larger PBX's too. In fact there are sizes for every office. A Pacific Telephone expert will be glad to study your needs and recommend the right PBX to fit them. There's no charge for consultation. Just call our business office.

Pacific Telephone

Telephones designed for every need

Extension telephones for modern living. Once you have a "step saver" in the kitchen—laundry—bedroom—or workshop, you'll wonder how you managed to get along without it. In larger homes you'll want more than one extension. They can be portable.

Wall telephones—especially convenient in the kitchen or laundry. Note the spring cord. It extends to a full four feet—coils into neat, short spiral when not in use. Spring cords available for all telephones.

For the hard-of-hearing—a telephone with built-in amplifier and adjustable volume control. Easy to operate. Permits the hard-of-hearing to carry on a normal telephone conversation. For home or business.

YOU'LL BE SURPRISED HOW LITTLE THESE EXTRA TELEPHONE CONVENIENCES COST. TO ORDER, SIMPLY CALL YOUR PACIFIC TELEPHONE BUSINESS OFFICE.

far from home?

Long distance visits cost so little

See for yourself. Check the typical rates listed on the inside cover of this directory. You'll notice, too, that night and Sunday calls cost even less than those you make at the low, day "station" rates.

Moving problem? Whether you need a piano toter or a house hauler, you can locate things fast by a glance at the Yellow Pages. Your handiest guide to most every sales or service is in the easy listings of the Classified Directory of your Telephone Book. Refer to it first.

Look First in the Telephone Book

Before You Make a Call

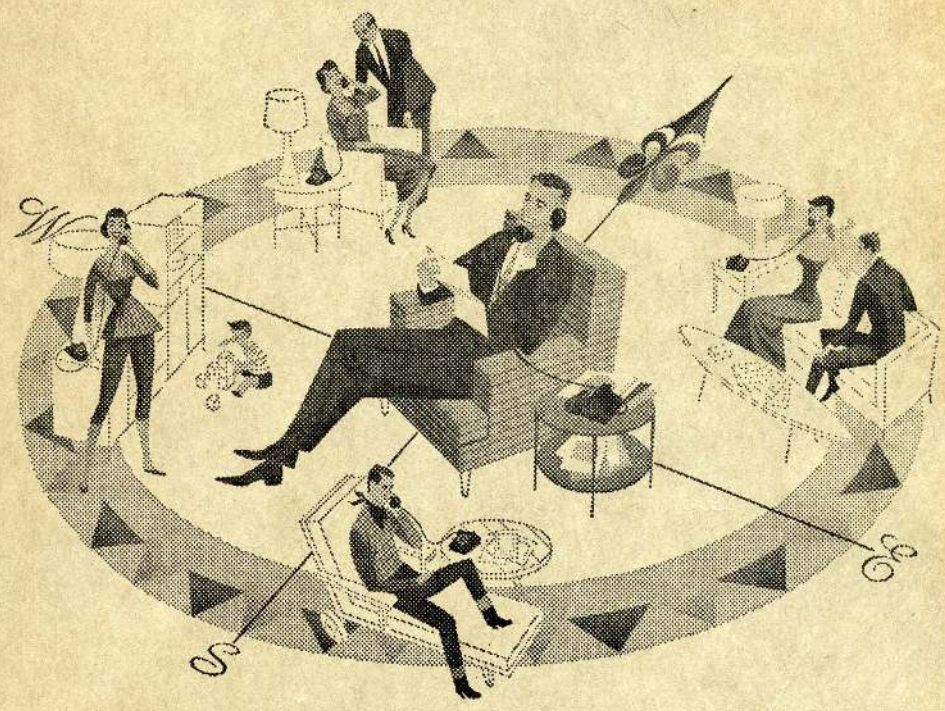

far from home?

Long distance visits cost so little

See for yourself. Check the typical rates listed on the inside cover of this directory. You'll notice, too, that night and Sunday calls cost even less than those you make at the low, day "station" rates.

Pacific Telephone

ALL TOGETHER...ON A SINGLE CALL...

...A LONG DISTANCE CONFERENCE CALL!

A Long Distance Conference Call brings the circle of family and friends closer together . . . East or West, North or South, wherever they may be. You can talk to friends or relatives in as many as five different cities *at the same time.* You can give and get the latest news, make plans together, have a wonderful time!

Easy to arrange! Just give the Long Distance Operator the names, locations and phone numbers (if you have them) of the people you want to talk to; she'll do the rest. At the appointed time, all of you can talk back and forth as you would in your own living room. Why not plan to enjoy a get-together soon?

Pacific Telephone

...includes the convenience
of telephones in kitchen,
living room, bedroom
and playroom.
