## W. S. Hart Improves Ranch

W. S. Hart has had men at work making improvements on his ranch for several months, and the work is now pretty well finisned up. The water system has been completed and the reservoir on a good elevation has been roofed, the movie log house on the hill has been nicely painted, and everything made as fine as it can be, so that Paint and Dynamite and the burro and mule need none of them be ashamed of their home when visitors come to see them, Mr. Hart's last picture, "Singing Sam Mckee" was filmed almost entirely on the ranch, and the closing scene of "Wild Bill Hickok" was also taken there, as were several other parts of this picture.

## Movie Company Works

There was a roar of revolver shots, a wild scattering of the denzens of the wilder part of Newhall a desperado and his gang dashing away carrying a beautiful girl who is shrieking for help, a young cowboy with a blazing gun in each hand, determined to rescue the girl or die-say now don't get excited. It was only a movie company working.

## Hay Truck Burns.

Entailing a loss of something like $\$ 5000$, one of the big hay trucks, with its load of about six tons of baled alfalfa hay was burned Tuesday evening on the Tunnel grade a short distance south of the Scherzinger gas station.
.The driver could give no reason to a certainy for the fire, but it was discovered near the battery, and he was of the opinion that a short circuit may have caused it. The flames spread rapidly to the hay, and the driver and his helper first anchored the wheels so it would not back up, and then turned their attention to saving the trailer, which also contained about five tons of hay, besides being nearly new. It was uncoupled and baeked out of danger.
The fire blocked traffic for an hour and cars filled the pavement for a mile in both directions. The intense heat of the burning hay entirely destroyed the truck, except possibly part of the motor, the entire body and transmission being warped and melted. Erickson \& Mudd, hay contractors, were the owners. It is stated that the truck and hay were fully insured.
Assistant Fire Wardens Daries and Zeigler were promptly on hand, to see that the fire did not spread to the mountains.

## A Mystery Wreck

A mysterious wreck is reported as taking place Monday night at about 10 o'clock on the Ridge Road, one and a half miles north of the National Forest Inn. A Paige ear, license number 442-723, going north, left the highway on a bad curve, and rolled 150 feet into the canyon. The car was badly wrecked. It was said that there were four people in the car and that one was killed and the others badly injured. A passing motorist is said to have taken the wreck victims in this direction to a hospital, but inquiry gives no trace of them here.

## Double Birthday Party

The beautiful Delano place in Bouquet Canyon was the scėne of a gay party Tuesday evening when Mrs Haskell and Miss L. Smith surprised Jack Haskell with a dancing and watermelón party to celebrate his birthday. Mr Haskell was inveigled into going up to the popular resort by a note to the effect that2 his-garage services were needed there, No sooner had he started than his family and many friends hurried up the winding road after him.
The oak-roofed pavilion, softly lighted with lanterns, and the enchanting music furnished by Ernie Ostrup's orchestra gave our people more than even their usual pleasure in their favorite amusement.
After several dances Mr Haskel and Miss Eva Madsen were called from among the merrymakers and each presented with an armful of most interesting looking packages, gifts from their friends. Miss Madsen and Mr Hadsell enjoy the same holiday. Mr Ostrup was also presented with a beautiful framed verse. Mr Ostrup is much esteemed in this community, both as a musician and friend.
A huge watermelon feed and the finishing dance numbers closed an evening which the guests declared to be the happiest of the summer.

## Soldiers Take Charge.

Lieutenant Strickland, from Ft. McArthur, in command of a squad of eight men, has taken charge of fire patrol work in Bouquet and San Francisquito and intervening canyons in the national forest. A motorcycle patrol is maintained by four of the men, while the other four look after the tourists. The soldiers are encamped in Bouquet Canyon. People who are careless with fire are apt to get into trouble in their vicinity.

## The Ten Millionth Ford

The ten millionth Ford is on the final stretch of its epoch-making tour from coast to coast on the Lincoln Highway.

After a trip through snow banks at at 12,000 -foot elevation in the mountains out of Laramie, the car which signifies a new accomplishment in motor transportation rolled on across the remaining miles of Wyoming's broad stretches to Salt Lake City, where Secretary of State S. E. Crockett, and Mayor Clarence C. Neslen extended an official welcome to Utah's capital. Later, Frances Renanlt, vaudeville star, made her initial bow to a Salt Lake City audience from the car which was introduced into her act, and was driven onto the stage at Pantages Theatre by Frank Kulick, old-time driver of Ford racing cars, who is piloting the ten-millionth on its way to the coast.
With the exception of Salt Lake City, where the Secretary of State was on the job, the car has been welcomed by the governor in every state capital through which it has passed. In Trenton, Governor George : Silzer did the honors, while Governor N. E. Kendall of Iowa headed the committee of welcome at Des Moines, and Governor W. E. Ross of Wyoming at Cheyenne.
Among the many thousands of members of the great Ford family that have joined in the honor paracles that have featured this historic trip, was an antiquated car with six-cylinder model K motor, number 539. This was at Omaha, and the old Ford product of 1906 vintage, by perfect behavior and performance in the parade, seemed to scorn the passing years.
At Rawlins, Wyo., a unique feature of the welcome was the appearance in the parade of the original Deadwood stage coach, which was driven by cowboys in full regalia, guns, sombreros, chaps and all.
Farmers along the Lincoln highway have turned out in great numbers to do homage, through the passing car, to Mr. Ford, who has given them transportation facilities and traction power unguessed and undreamed of but a few years ago. At one place the parade was joined by a number of farmers with a Fordson tractor coupled to a trailer of the soil told the world of the complete triumph of Ford traction units over horse-flesh on the farm.
The tour, which celebrates a tenmillionth production of the Ford Motor Company, is scheduled to end this week, when the ten-millionth Ford enters San Francisco, where a big reception awaits it, and Frank Kulick delivers to the mayor of that city a letter from the mayor of New York, and then drives the celebrated car out to the end of the Lincoln Highway.

Mrs M. D. Skelton, of Los Angeles visited her brother C. 'M. Reynolds, and looked after business interests here last week.

It didn' take mobilization or delense day to find out how Governor Bryan would act, and how little the government could depend on him, if there were real war in sight.

Eastern people who buy California real estate and then go back and wait for it to make them rich are apt to get a big surprise when they inquire about taxes, if they have not been very careful. They will never get any notice of taxes, and are likely to find it sold for non payment. And if it has gone too long, redemption rights expire, and some tax shark will get it. The laws as to notice are defective, and the tax shark "finds rich pick-"ing:-

It is the usual thing to roast the international bankers, and I think as little of them as anyone when they try to get our government into some of their deals. But if they can hog-tie those European nations and make them behave by loaning them money, they may do a good thing. The trouble with them so far is, they want Uncle Sam to get into the game by joining a political union, so they can use American soldiers as policemen, and then make Uncle Sam pay the bill. Let the international bankers fix up their deals if they want to, and furnish the money, if jected?

## UNKNOWN!

That's not so "worse.
A long time $\mathrm{ag}_{4}$ in Palestine, only a tew knew Cod.
Even over in Athens, not a thousand miles from Palestine, no one knew him.
Paul went to tell the Athenians about Him. They mocked Paul.

Now, when all we see is made plain to man, when God has even written letters explaining himself, even sent a man down with further instructions, and they killed him.

Yet the universities are hunting with all their might to find something besides God as the source of things.

But why need we worry when God is not only unknown, but re-
B. hey wish, and let all the too Americans that want to put money into the deal go ahead---but for goodness' sake keep the government out of it. One of the bankers helping organize the deal to settle Europe's troubles told the bunch over there some very plain truths. He told them no money would be paid over, if some government was going to grab the whole thing---if anybody hereafter tried to force things, or would not agree in advance to behave, not only for a year or to, but for fifty or'sixty years at least, the whole deal would be off. This would seem to indicate pretty good sense.

Residents of Newhall school district will do well to remember the meeting called for Tuesday evening, August 12, at the school house. The question of the location of the new school house will be discussed, and probably decided at that meeting. And if anyone wishes to present the advantages of any location, that is the time to do it. Protests after a thing is settled do very little good.

Summit and Thereabouts.
Definitions: The Summit, geografically the highest point on the Mint Canyon Highway is perhaps more elegantly defined as "one of the outlying suburbs of Saugus," since it is postally dependent on that town.
The thereabouts of the Summit includes that region bounded roughly by the Agua Dulce and Soledad Canyons and the Antelope Valley, but including none of the three.

M A Johnson, of Summit Ranch was a caller at the C W Thompson place Sunday evening.

A lime kiln is being erected on the Karl Gest place about a mile and a half east of Summit. Mr Gest and a Mr Cain are associated in the venture. There will be a good local demand for the product as well as a sure market "down below." Industrial operations contribute far more to the upbuilding of a community than high pressure real estate selling campaigns and hot air.

Harold Johnson, who homesteaded the place below the Summit on the highway, and who is now a successful contractor in Los Angeles, called at Summit, Sunday.

The item about W M Mullen in last week's paper should have read: "Little Pat Mullen made his customary weekly trip to the Summit Tuesday. We were delighted to learn that the report that he had let his voice fall and rrush his foot was utterly unfounded."

Mouday Mr Tysall was obliged to return to Saugus by way of Summit, having found the Soledad road blocked by a ditched Postal Telegraph truck.
2. We were reading that scientists say a high forehead is a sign of great intellent. If you wish to cheek up on this, look at Bert Ty-sall-or even that "Whispering Pine" that writes up the "Needles" column.

Hoyt's Cracker \& Biscuit Corporation have resumed operation of their delivery truck on the Ridge-Bakersfield-Mint route.

Summit Service have been Rievsl Shepherd, outside salesman of the Jones Book Store, and Bert Starry a U. S. C. student, who were just returning from a nine weeks trip up into Nevada and around Lake Tahoe. Aside from a three day wait at Gardnerville, Nevada for a new axle to arrive from San Francisco, the trip was pronounced a pleasant one.

## THE DESERT

## By CHARES HANSON TOWNE

Always it shall call to me when cities throb with pomp and power, When gardens fill my heart with bliss thru long, slow healing days of peace-
The desert with its spacious miles, its wonder that is like a flower; And well 1 know its voice shall call, and call, and call, and never cease. Oh, wide, strange land where few have trod, Save those who sought-and found-their God!

NOTE:-The following poem was written by the wife of a National Forest officer, who gave many years of valuable, loyal and appreciative service to his calling:

## TO A SUGAR PINE bry Julia t. Shinn.

Thou royal princess of the upper land
That spreads a white snow carpet for thy feet,
And gives thee yellow pines and cedars sweet
To be thy waiting women. In thy hand
Are blessings for thy people, shelter, food
And safety for thy little folk in furs
And for the birds whose winged music stirs
Even thy great heart to its happy mood.
But for us, elimbing to thy granite gate

- In annual pilgrimage, are gifts more great

And glorious; courage, hope, and strength to do
The work that's ours; a joyous confidence
That work is surely worth the doing, too,
And the serenity that is work's recompense.

Travel along the Ridge between Los Angeles and the San Joaquin valley is extremely heavy at the present ime. It is conservatively estimated that an average of 600 automobiles a day pass the forest service station. Camping privileges under permit, are allowed at National Forest Inn and Sandberg's only, No camp fires are allowed along the highway between Martin's place and the north boundary except at the places named. Permits, other than those issued by the district ranger's office at Newhall or the forest officer at the inn, will not he recognized for camp fire privileges in the Ridge Road division.

Hunters are going to get a scrious setback when the deer season opens in the Newhall-Saugus district, September 16. A number of the best hunting localities have been closed indefinitely by the Forest Service. Fur or hure, no permit can be secure Trespassing on tional Forest constitutes a felony.

The Engllsh royal state coach, which is still in use on ceremonlal occasions. is a magnificent vehicle of its kind, and, according to Horace Walpole, cost nearly $\$ 38,000$. The use of coaches is a comparatively recent innovation, for as late as the relgn of Queen Elizatheth the Engllsh royal family had to be content with a wagon which was a sort of cart without springe. the hody resting solldily on the axie. Before the invention of the coach the most aristocratic ladles were necustomed to ride on pllitions fixed on the horse: usually behind some relative or servant.

## The Jin-Jer Jar <br> I have been here a year and heard it three ways, and for that matter hear it three ways every

The first is to be rich enough to pay most of the election expenses, and the other is to get it by accident after being elected vice-president. And in the first case everybody will say the office was bought, and in the other will say that the president has no ability. For these two reasons, and another, I don't care for the office.

A laundryman once told me he had seven reasons for taking in washing-a wife and six kids.
